Completed in 2016

### About Me

Enthusiastic engineering graduate with a strong foundation in coding and design. Proficient in HTML5, JavaScript, and Python, with a keen interest in continually expanding my technical skill-set. Quick learner with the ability to adapt to new software and technologies. Seeking a full-time software development position to deliver solutions to business needs.

### Internship

INNOMATICS RESEARCH LABS PVT. LTD, Hyderabad

Remote Internship (20 Feb-30 Apr) 2023:

- Web Development at Innomatics Research and Labs (Remote).
- Developed responsive web application using modern technologies.
- Gained Valuable experience working on multiple projects concurrently.
- Successfully completed all assigned task and projects within specified timelines.
- Received a recommendation letter for my performance during the internship.

### Projects

#### Online Shopping Application:

- Understanding how to design an online shopping application that lets users explore, filter, and sort products as well as build a personalised shopping cart.
- HTML, CSS, and Bootstrap are front-end technologies.
- Frontend and server side work were done by me to construct an online retail application. • Server-Side: Node.js, Express; • Database: MongoDB.

#### Personal Portfolio Website:

- HTML, CSS, and JavaScript were used to create a contemporary and responsive personal portfolio website.
- Styled with Bootstrap and CSS to improve the overall visual experience.
- The "about me" area allows users to view my credentials and educational history.
- Incorporated SMTP.js to enable smooth email correspondence, making it simple for users to connect and get in touch.

### Hobbies & Interest

- Surfing the internet and learning new things.
- Passionate to photography, enjoy capturing moments.
